

**Department of Toxic Substances Control
Project Status Update
For
Wyle Laboratories Norco Facility Site
October 8, 2004**

SITE INVESTIGATION/CLEANUP DOCUMENTS

- No change from last week update.

INVESTIGATION/CLEANUP FIELD WORK

- Implementation of the DTSC-approved offsite sampling Technical Memorandum is on going. Homes on Golden West Lane were re-inspected to conduct Indoor Air Quality (IAQ) survey questionnaire/chemical inventory in preparation for the IAQ sampling next week.

PUBLIC PARTICIPATION:

- On October 6, DTSC contacted the principal of Norco High School, the school district representative, and the CAG chair to give them the preliminary sampling results from the high school football field and two homes on Hillside Ave.
- DTSC responded to several inquiries from residents and prospective residents regarding the status of the site.
- DTSC responded to a request for a file review from an Environmental consultant.
